

## Slade 3300CJ Pump Packing

### Applications

Chemical, steam, hydrocarbons, pulp and paper, and more (refer to Industries Served)

### About the 3300CJ Pump Packing

Carbon jacketed graphite pump packing used as an anti-extrusion or bull ring in high pressure pumps and valves as well as an anti-abrasion bottom ring in slurry applications. Graphite foil yarns, each yarn individually reinforced with carbon fiber, are braided and jacketed with carbon fibers.
